

Bob Shawah, standing to the far right, with his golf partners at last year's outing.

Golf Classic Will Support NCC Youth

When Bob Shawah and some of his co-workers signed up for New Community Corporation's Golf Classic last year, they had no idea what to expect. Little did they know it would turn out to be one of the best events they have been involved in, both on and off the course.

"Not only was the setting of Fiddler's Elbow absolutely beautiful, but we couldn't have wished for a better day of weather. The evening reception was also very nice and it really gave us more insight into New Community and the many people that it helps," said Shawah, Senior Account

Manager VP for Wachovia Insurance Services, a Wells Fargo Company.

This year promises to be even better, as New Community hosts its 16th Annual Golf Classic on Tuesday, June 29 at Fiddler's Elbow Country Club in Bedminster, New Jersey. The club is considered by many to be one of the most beautiful in the entire Northeast, featuring 54 meticulously landscaped and professionally designed holes of golf and outstanding amenities, including an elegantly appointed, stately English country manor clubhouse. Shawah is co-chairing the 2010 golf outing with William Bori, CEO and Franchisee, Locations Holding Co., Inc.

Mike Woods, the meteorologist for Good Day New York, on Fox 5-TV, is the scheduled celebrity guest. Woods plans to spend the day with the golfers, meeting them out on the course and speaking at the evening reception in the clubhouse.

Proceeds from the fundraiser, New Community's largest of the year, will go to support the organization's youth and education programs, including summer camp, after-school enrichment, recreation center programming, as well as operation of its two early learning centers and community charter school.

"I can't tell you how much we depend on the golf outing to continue to provide excellent recreational and educational opportunities for our young people," said Ed Morris, New Community's Director of Youth Services. "On behalf of all of our young people, we thank everyone who comes out to support this event."

Back by popular demand this year will be free warm-up exercise sessions for our golfers. The Golf Stretching Clinic will be provided by physical therapists from Kessler Institute for Rehabilitation. They will instruct participants on a series of exercises to help them avoid injury while playing.

"We are thrilled to be able to work with the golfers at this year's NCC Classic guide them through a short series of warm-up and stretching exercises," said Kris Westra, a physical therapist and certified BACK-to-GOLF® specialist at Kessler Institute for Rehabilitation. "As part of Kessler's specialized Golf Performance Program, we offer these complimentary services to help individuals avoid injury and maybe even improve their game. We hope everyone will stop by for some important and fun instruction."

Information on sponsorship opportunities for corporations and other businesses, as well as general participation in the event, can be obtained by calling 973 497-4409.
