

New Community

Adult Medical Day Care

266 SOUTH ORANGE AVE., NEWARK, NJ 07103

Adult Medical Day Care

Located inside the New Community Extended Care Center (a 180-bed skilled nursing facility), New Community's Adult Medical Day Care offers a safe and productive day of activities where the client can return to the familiarity of their home each evening. Our clients enjoy a variety of challenging, interesting and fulfilling activities. We provide excellent medical and therapeutic care with an experienced staff of healthcare professionals.

We also promote recovery from disabling conditions and help clients regain skills needed to care for themselves, while encouraging intellectual stimulation throughout the day.

Additional Day Care Services

Nursing Services, by highly-qualified, licensed RNs, LPNs and nursing assistants in a caring, patient-focused, clinical environment.

Transportation Services, by our safe and reliable, qualified drivers.

Recreational Therapy, designed to encourage and promote physical and mental stimulation, as well as socialization. Our staff is committed to meeting the spiritual, emotional, occupational and social needs of our clients.

Rehabilitation Therapy, dedicated to providing the highest quality physical, occupational and speech therapy services, while maintaining a "tender touch" in customer service and patient care.

Food Service, where the enjoyment of mealtime is essential to the overall well-being of our clients.

Our Mission ~ To help residents of inner cities improve the quality of their lives to reflect individual God-given dignity and personal achievement.

Our Philosophy

The delivery of excellent medical care in a clinical environment that promotes safety and addresses the medical, emotional and spiritual needs of our clients is of utmost importance to the staff here at New Community's Adult Medical Day Care at the Extended Care Center. We also believe in working closely with families and encourage their involvement in the day-to-day activities in which their loved one is involved.

Activities & Meal Service

Designed with the input of clients, activities at New Community Adult Medical Day Care at the Extended Care Center are varied and meant to be enjoyable and fun. Residents and clients attend monthly meetings where they help plan a calendar of activities, as well as make suggestions about the menus prepared by our dietary staff.

Our clients enjoy:

- Exercise, musical bingo and other games,
- Weekly on-site barber and hairdresser services
- Craft-making
- Music appreciation and karaoke sing-alongs
- Art, including painting and ceramics
- Meal Planning and Nutritional Services
- Hot, full-course meals that are also well-portioned
- Afternoon snacks
- Specialized diets as directed by physician and dietitian.

Medical Care

- A physician specializing in geriatric care serves as medical director
- Professionally trained RN on staff
- Complete care assessment developed for each client by our multi-disciplinary team
- On-site physical, occupational, and speech therapy designed to restore mobility and maximize independence
- Management and administration of medications
- Assistance with toileting, bathing, feeding, dressing, mobility and managing incontinence
- Emergency preparedness and training with staff who are certified in basic life support and first aid
- Other services as needed such as podiatry, and massage therapy
- Access to primary care physicians

Our dedicated staff includes physicians, nurses, social workers, restorative nursing staff, a welcoming committee and administrative staff.

Transportation Services

New Community provides transportation to and from Adult Medical Day Care and medical appointments as well as trips to local shopping centers and restaurants. For many of our clients, access to our services and other community-based providers begins with our transportation system. Our handicapped accessible vehicles are clean, safe and reliable.

All our transportation providers are screened to ensure they have good driving records. They are trained in the proper operation of the vehicle and in safety techniques.
